

Curriculum coverage

Duncton Junior School 2018-2019

We use a mixture of reading schemes which are all colour coded to ensure that children choose the correct level. Children then move into being able to choose from their own reading books from home, library or school.

We are working on using broad themes for our curriculum work this year; it is our ethos to enable the children to also explore through their own interests. Curriculum areas that are not specifically mentioned here are woven into the learning of the topic and can be found on the medium and short term planning within school.

	English	Mathematics	Science	Other curriculum subjects and theme for the term/half term
Autumn term 2018 Year 3	Non fiction Story writing	Place value Number	Plants Humans and other animals	Theme: War and Peace
