

Helen Martin M.A.(Ed)

Helen studied Geography at the University of Lancaster and is also the daughter of a forester; therefore bringing a love of the outdoors to the headship of the Federation. She has been Head for 14 years and the schools have moved from strength to strength in that time.

Both schools are also Forest Schools, which Helen has led here and across the locality. She loves spending time teaching Forest Schools or Literacy around the school and spending time with the

fabulous children in the Federation, including in her active and exciting "Silly Assemblies", as named by the Graffham Nursery children!
