

## Breege Jinks

My 40 year career in education has been devoted to School Effectiveness and Improvement. Prior to retiring, I spent the first 22 years teaching and leading the management of teaching of Mathematics in a variety of maintained schools in West Sussex as well as Senior Leadership roles. The rest of my career was spent in Senior Roles in the Independent Sector with a focus on improving the quality of teaching and learning across all subjects for all age groups from Key Stage 1 to 5.

My first degree, a Joint Honours in Mathematics and Economics was followed by postgraduate research in Econometrics, specifically investigating The Determinants of Investment within Models of the UK Economy. After entering the teaching profession, my MA research focussed on School Improvement and Effectiveness and further research in this area was completed during my studies for the National Professional Qualification for Headteachers.

I chair the Teaching and Learning Committee.

I passionately believe that well led schools have the ability to transform pupils' lives! I am delighted to hold the position of Governor at this superb school and work with such a devoted Headteacher and professional team of staff.

My hobbies include music, reading and spending time with my wonderful family and friends.
